

# 912 TV-SAT AND MODULATOR EQUIPMENT

## DIGITAL MODULATOR HDMI DVB-T/T2

Code : **9120246**

Model : **DMH-401**

### Description

Digital modulator designed to generate a digital terrestrial TV channel in DVB-T2 or DVB-T from one HDMI signal. Can be programmed using PC software and a wireless programmer.

### Applications

Collective TV installations where it is necessary to generate a DVB-T channel containing a service generated locally from SAT receivers, Blue-Ray players, PC or surveillance cameras. Compatible with all collective TV installations since the channels can be distributed throughout the 47 to 862MHz band.

### Characteristics

MPEG4 AVC Video encoder. Outstanding quality of the generated output channel. HDMI signal input. Zamak chassis with metal side covers. F-type connectors.
