

# 913 MULTISWITCHES

## SPLITTER IF 9X2 WITH DC FOR 913

Code : **9130062**

Model : **DU-240**

### Description

Frame with 9 units of the DI-213 splitter. DI-213 is a two output splitter which covers frequencies up to 2,400 MHz. Permits current path from the input to all its outputs. Used to feed intermediate active multiswitches starting from only one amplifier in the head-end.
