RING AND CLAMP

Code : **9980011**

Model : **JV-335**

Description

Material for the installation of guy wires in masts, telescopic masts or towers of great length.

Applications

The wire ropes are fixed to the mast by means of a ring clamp for masts up to $\varnothing 40$ mm or are fixed directly to the three tubes of the tower. Ring-headed expanding bolts are used to secure them to the floor or roof.

Characteristics

Steel wire ropes of $\varnothing 3$ mm. Wire rope grips for wire ropes of $\varnothing 3$ mm and $\varnothing 6$ mm and turnbuckles.
