

# 916 FIBRE OPTIC DISTRIBUTION

## **OPTICAL RECEIVER TV-SAT QUATRO**

Code: 9160032

Model : **OR-511** 

### Description

Optical to RF convertor for multiswitch systems. Supports 4 satellite polarities, digital TV, FM and DAB. Converts the optical power to RF power.

#### **Applications**

Multiswitch distribution systems spread over long distances or with many distributon points. Can be used with before a multiswitch system as it has dedicated outputs for each of the satellite polarities and terrestrial.

#### Characteristics

Powered by the multiswitches via the satellite outputs or with a separate power supply PSU-010. Built-in Automatic Gain Control (AGC) which allows a wide dynamic range of optial powers without affecting output power and quality. Two LED indicators allow the user to observe the status of the unit.
