NURSE CALL BUTTON WITH LIGHT (DIN8)

Code : **9410081**

Model : **LLC-211**

Description

Handset enables patients to place calls and control the lights. It has a male DIN-8 connector for the LLC-20x wall peripherals. Also, it has a red nurse call button with a red LED and a yellow LED that indicates the state of the connection. This pear-type accessory enables patients to place calls, while the red LED reflects the status of the call. On top of that, up to 2 lights can be controlled with an additional 2 buttons. Easy cleaning and connection.
