

942 TELEPHONY

PHONE GATEWAY 8FXO

Code: 9420019

Model: GTF-014

Description

The GTF-014 is the main element of the ALCAD NURSE CALL system. It connects the VoIP switchboard with the Public Switched Telephone Network (PSTN), enabling the reception of external calls and the generation of external calls. Up to 8 analogue telephone lines can be connected to the VoIP switchboard. It can also send and receive fax calls.
