

942 TELEPHONY

TELEPHONE GATEWAY 2 RDSI BRI

Code : **9420029**

Model : **GTF-322**

Description

The GTF-322, with its 2 BRI ports and the possibility of up to 4 simultaneous voice channels, is the best way to connect RDSI networks with the VoIP world. This device, together with the Central Control Unit, enables the placement of calls using basic ISDN links.
