TELEPHONY

VIDEODOOR IP 1 BUTTON

Code : **9420123**

Model : **POR-101**

Description

The POR-101 is an IP video door phone with night vision color camera and a call button compatible with IP PBXs based on the SIP protocol. The door phone can be used in any type of environment being water resistant (IP65) as well as having an aluminum housing that makes the device vandal proof. Permits surface mounting or recessed installation in the wall.
