---

## IP PHONE - 6 LINES

Code : **9420125**

Model : **TFI-161**

### Description

The TFI-161 is a 6-line IP telephone based on the SIP standard. It is a easy-to-use telephone with functionality such as call ID, call waiting, call register, call transfers (attended and unattended) and volume control, which allow its use by the staff as a telephone control station for the reception of calls from the rooms.
