MANAGED SWITCH CORE 24P 16+4FO

Code : **9430029**

Model : **SWI-145**

Description

Core Switch of the ALCAD NURSE CALL system, for networks with high efficiency requirements and broadband needs for applications such as voice, video, data base management and other services which reduce the efficiency and response capacity. Its non-blocking design offers Gigabit simultaneous efficiency in all ports. Optic fiber connection is possible through 4 Gigabit SFP connectors. Layer 2 management offers reliability, control and availability.
