RESTART TIMER OF POWER SUPPLY

Code : **9430057**

Model : **CER-045**

Description

Timer device in charge of the periodic desynchronization of the activators CER-010, CER-011 or CER-012, so that they activate the tags constantly within their activation area. In order to do so, the desynchronizer simply grounds the synchronization input of the CER-01x for 2 seconds.
