

# 912 TV-SAT AND MODULATOR EQUIPMENT

## BROADBAND AMPLIFIER HIMALAYA

Code : **9120256**

Model : **PA-740**

Broadband amplifier for 912-TM himalaya transmodulators. It has one input to amplify the signal coming from all the modules of the installation, and a mutiplexing input for the rest of the channels of the installation. The output level can be controlled by means of an attenuator.
