941 SENSORS AND ACTUATORS

AUDIO COM. UNI. BUS 1 1 RED 1 GREEN BUTT

Code : **9415027**

Model : **MCA-942**

Description:
RS-485 (bus) touch-operated bed unit with audio, two buttons (call and presence) and two reassurance LEDs, one for each button. Easy to clean thanks to the antibacterial coating on its front panel. It provides voice communication, allows a call to be initiated using the red button and presence to be registered using the green button. The red LED indicates the call status.
The MCA-xxx modules can be installed at multiple points and managed from a single CHC-401 control unit, allowing sensitive equipment to be kept away from the communicator installation point and thereby increasing protection and security.

CÓDIGO	9415027
MODELO	MCA-942
DIMESIONES	75 x 120 x 45 mm
ALIMENTACION	24VDC
ACABADO	ABS
PULSADOR	Botón rojo: Llamada Botón verde: Presencia/Cancelación
TEMPERATURA DE FUNCIONAMIENTO	De 5°C a 55°C
GRADO DE PROTECCION	IP42
PRESION DE SONIDO	85dB
ALTAVOZ	8 ohm, 1,5W
SIPV2	Session Initiation Protocol Version 2
CÓDEC	G.711 (Ley A) (64 Kbps)
CONECTOR	RJ-45 /RS-485
