NURSING CALL MAGNET ACCESSORY

Code : **9400332**

Model : **ACC-019**

ACC-019 raw magnets are unshielded disc-shaped magnets. They can be fixed easily and securely by drilling or countersinking. The individual holding magnets can be used in combination with ALCAD handsets from the ACC-75X and ACC-76X range.

Individual holding magnets, unlike magnet systems, can have relatively high adhesive forces.
