

904 BROADBAND AMPLIFIERS

AMPLIFIER 2 OUTPUTS 12 VDC

Code : **9040061**

Model : **CA-215**

Description

The amplifiers are equivalent to the basic models but with different preamplifier feed voltages.

Characteristics

The electrical characteristics are identical to those of the equivalent products, except for the preamplifier feed voltages.

CODE		9040061
MODEL		CA-215
Equivalent model		CA-210
Output voltage	V _{DC}	12 Switchable
	mA	60
