## $0>$ OUTLETS AND USER ACCES POINTS <br> ATTENUATION 7 DB

## Code : 9070040

## Model : BM-200

Description
Outlets for terrestrial TV with two IEC male and female connectors. They cover frequencies up to 862 MHz . Applications Individual or MATV installations. Installation as a terminal outlet connected to a tap-off or splitter, or as outlets in series connected to each other. The outlet facilitates the connection of the TV to the distribution and loads the distribution when the TV is not connected.

Characteristics
Voltage blockage in the output connectors. Shielded zamak and metal plate chassis. Connection of the coaxial cable by means of screw terminal. Fits in a $\varnothing 60 \mathrm{~mm}$ box.
