WE REACH THE SUMMIT TO OFFER YOU THE BEST SIGNAL

OUR himalaya MODULAR HEADENDS
STAND OUT FOR THEIR:

Versatility

All himalaya modules are compatible with DVB-S/S2 and DVB-T/T2 inputs and with DVB-T or DVB-C outputs.

Comfort

himalaya modules can be configured via wifi from a smartphone, tablet or computer thanks to their new, responsive web interface, without installing any software.

Cost Savings

Thanks to remote configuration and redundant power supplies, maintenance trips are kept to a minimum.
